

SILKPEEL
DERMAL INFUSION

SILKPEEL **DERMALINFUSION**

DERMALINFUSION® is a patented, non-invasive, 3-in-1 dermatological treatment that simultaneously exfoliates, extracts, and infuses skin with condition-specific serums for an all-inclusive treatment in one step. It is the first and only critically-timed, exfoliation-to-serum treatment technology with optimal-depth delivery for immediate and long-lasting results on all skin types—with no downtime.

PROFESSIONAL EXFOLIATION TREATMENTS

Professional exfoliation treatments naturally trigger skin's wound-healing phase: a protective process that keeps pathogens out, yet impedes skin's receptiveness to letting restorative serums in. This prevents active ingredients from penetrating beyond the skin's surface where they will have the most impact. Because the window of time to maximize topical serum efficacy is extremely limited, a precision timed-delivery of serum infusion is critical for maximum penetration.

THE DERMALINFUSION DIFFERENCE

By eliminating time gaps between exfoliation and serum application, DERMALINFUSION'S patented 3-in-1 technology infuses skin with serums at the moment of exfoliation before the wound-healing phase begins, when skin is most penetrable. Skin experiences maximum penetration of active ingredients at optimal skin depths, and enhanced serum absorption and retention receptivity at a deeper level. With Dermalinfusion's distinctive simultaneous 3-in-1 technology, plumpness, volume, hydration, tone, and texture are optimized.

PRO-INFUSION SERUMS

DERMALINFUSION'S customized efficacy lies in its line of specifically formulated Pro-Infusion serums. Each highly-potent serum is the product of advanced research in skincare science, developed for exclusive use with the SilkPeel Dermalinfusion system, and customized to be highly influential on major skin concerns.

DERMALINFUSION's unrivaled medical skincare technology is the most effective resurfacing treatment available from a medical professional.

PRECISION-TIMED TECHNOLOGY

SIMULTANEOUS RESURFACING, EXTRACTION, AND SERUM INFUSION AT SKIN'S PEAK MOMENT OF RECEPTIVITY

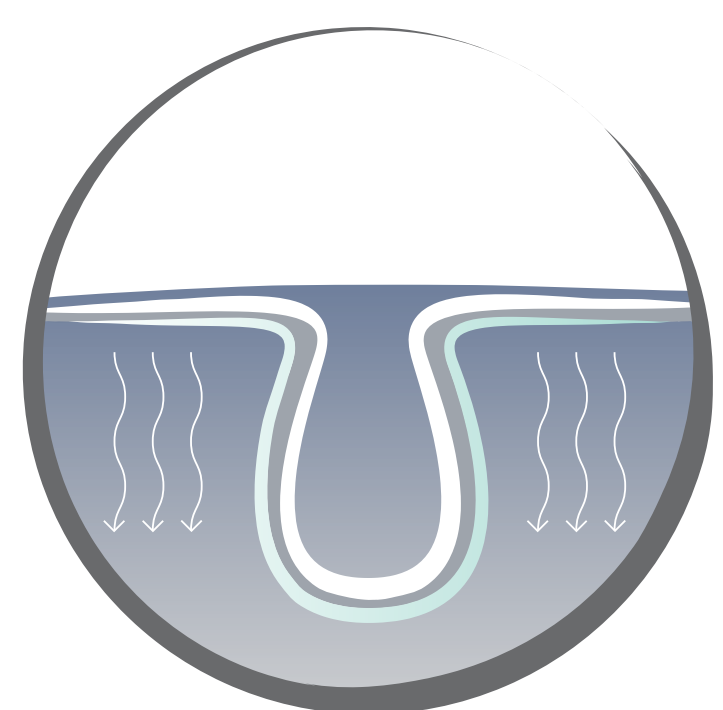

EXFOLIATES

Distinctive recessed diamond tip exfoliation removes dry and damaged cells for unparalleled resurfacing and rejuvenation.

EXTRACTS

Closed-looped vacuum pressure removes damaging dirt, debris, and bacteria while deeply cleansing.

INFUSES

Condition-specific serums are simultaneously driven deep into epidermal layers at skin's peak moment of receptivity for enhanced skin health and visible results.

Volumizes Skin by 70% VERY

Improves Radiance; Refreshes and Revives

Visibly Reduces Fine Lines and Wrinkles

Targets Skin Concerns and Optimizes Results

Gives a lasting youthful Boost

Stimulates Healthy Cell Renewal

**DERMALINFUSION
FOR FACE AND BODY**

DERMALINFUSION is the instant and long-term solution for improving:

- Hyperpigmentation, Dark Spots, Sun Damage, Post-Inflammatory Hyperpigmentation (PIH)
- Aging Skin with Fine Lines and Wrinkles
- Sallow Skin
- Dry, Dehydrated Skin
- Acne-Prone Skin, including active acne
- Rough Skin Texture
- Fine lines, discoloration, and sagging around delicate eyes and lips – areas traditionally too fragile for procedures.
