# Dermatological Solutions

Based on Proven Botanicals

**Roni Kramer** Founder  
*Roni Kramer*

"My personal goal when I founded Kamedis was to make every skin condition manageable and to introduce Traditional Chinese Medicine (TCM) to 21<sup>st</sup> century consumers in a way that's accessible to anyone. Why? Because it works."

## Rooted in Dermatology & Traditional Chinese Medicine

KAMEDIS develops dermatologist-tested, clinically proven, botanical skincare products targeted to relieve symptoms of chronic skin conditions, such as Eczema, Atopic-Dermatitis, Acne, Dandruff, Seborrheic Dermatitis, Psoriasis and dry / itchy / irritated skin.

Blending patented combinations of Traditional Chinese Botanicals with selected Western ingredients, our innovative formulas are based on years of research that includes testing hundreds of botanicals and combinations, as well as development of a proprietary plant extraction process to maximize results.

Kamedis products are sold worldwide through our trusted distribution partners.

## Skin Balance is Our Mission

The skin is a marvelous creation of nature. We care about the balance of the human body system and optimal wellbeing, therefore we developed our products to work with the skin and restore its natural balance.

# Relieve your skin with Kamedis Botanicals

## Extracting Nature

Kamedis studied over 400 Traditional Chinese Medicinal botanical extracts in order to map out their properties and gain complete understanding of their benefits and effects. We chose our plants according to their specific efficacy on chronic skin problems.

## Controlled Conditions

Our botanicals are indigenously grown and harvested at ideal altitudes and weather conditions, yielding strong and healthy plants with optimal organic chemical profile.

### Extraction Technique Maximizes Results

Efficacy is so important to us, that we designed our own plant extraction process at Kamedis' Green Mountain Factory in Chengdu, China, using industry's most advanced methods and quality assurance criteria.
